Sex Male | Date of birth 5 Sep 1983 | Nationality Iranian

## POSITION

## Senior Researcher (Research Grant B)

## WORK EXPERIENCE

1 Jan 2018–Present

**Senior Researcher/Programmer**

SPRITZ Security and Privacy Research Group, University of Padova, Padova (Italy)

**My responsibilities:**

- Contribute to the acquisition, set up, maintenance and integration of the Software Defined Network and Cloud infrastructure
- Security Network monitoring and measurement, including, e.g., resource provisioning, performance analysis and modeling of SDNs
- Analytical Modelling and mathematical analysis of the security issues (network trustworthy, misconfiguration, Accountability, and steal flow) on SDN/NFVs and network devices such as printers and propose robust algorithms
- Analytical Modelling and numerical analysis of malware/ransomware detection systems in Large datasets

1 Dec 2016–31 Jan 2018

**Research and Development Engineer**

CNIT (Consorzio Nazionale Interuniversitario per le Telecomunicazioni), Rome (Italy)

I was as a CNIT senior researcher at the University of Rome Tor Vergata to work on European H2020 Superfluidity project. The SUPERFLUIDITY project aims at achieving superfluidity on the Internet: the ability to instantiate services on-the-fly, run them anywhere in the network (core, aggregation, edge) and shift them transparently to different locations.

**My responsibilities:**

- Establish solution environments for the 5G Cloud section of the SUPERFLUIDITY project
- Propose some scheduling and adaptive allocation techniques over the Cloud Datacenter in the SUPERFLUIDITY project
- Apply Artificial and meta-heuristic methods (e.g., machine learning and reinforcements) over 5G network architecture over SUPERFLUIDITY project.

1 Dec 2015–1 Dec 2016

**Research Associate (Programmer/Analyzer)**

University of Modena and Reggio Emilia, Modena (Italy)

Work on the project SAMMClouds: Secure and Adaptive Management of Multi-Clouds

**Description:** The SAMMClouds project aims to address some of the open issues related to the Software as a Service (SaaS) and Infrastructure as a Service (IaaS) systems. Specifically, the research activities will focus on the study and proposal of innovative solutions with regard to three main issues:

- Monitoring and management of IaaS cloud and multi-cloud systems
- Resource management in SaaS multi-cloud systems

- Data protection and security in cloud systems

**My responsibilities:**

- Propose, implement some analytical solutions techniques some novel solutions using AMPL (Knitro, MOSEK, and IBM CPLEX) optimizers.
- Incorporate the programming language (C++/python) using a bash script to the formulation, testing, deployment, and maintenance of the multi-cloud resource management issues.
- Implement VMs managing algorithm using Docker and Oracle Virtual box in some tasks.

1 Nov 2012–20 May 2016

**Software Programmer (Research Assistant)**

Sapienza University of Rome, Rome (Italy)

**My responsibilities:**

- Design, implementation, and evaluation of energy-provisioning cloud-based (virtualized)/networked data centers testbed
- System modeling via computational intelligence methods, particularly mathematical optimization
- Techniques such as KKT, workload anticipation techniques, and gradient-based approaches, some AI methods, and some supervised learning (regression analysis)
- CloudSim Platform knowledge and hands-on experiences (Java coding)
- CVX/MOSEK packages over MATLAB Platform knowledge and hands-on experiences
- Develop efficient coding in C++/Matlab and C++ memory checking methods

**Business or sector** Education

1 Apr 2012–1 Oct 2012

**Software Programmer**

National Iran Oil Company (NIOC), Tehran (Iran)

**My responsibilities:**

- Software Analysing on PISDB and FFSDDB projects (oil field datastream organization software)
- Maintain confidentiality with regard to the information being processed, stored or accessed on the internal projects
- Coordinating the data entry flow and establishing initiative methods for reliable data entry
- Analyze, develop and implement testing procedures, programming (C++, Java) and documentation
- Record and document actual results as per expected results
- Review and adhere to quality system documentation and company policies.

**Business or sector** Information and communication

1 Apr 2008–31 Dec 2008

**Software Programmer**

Tidewater Ltd co. (Rahyab Rayaneh Gostar), Tehran (Iran)

I attended in two projects **GCOMS**, **TCTS** as a software tester and programmer.

In **GCOMS**, which is a system under direction of ports and maritime organization in non-container terminals domain with slogan of creating unity procedure in port operations cycle at nine significant general cargo commercial ports of the country such as Imam Khomeini, Shahid Rajaei, Boshehr, Shahid BaHonar, Khoramshahr, Chabahar and northern ports as Anzali, Noshahr and Amir Abad is implemented thoroughly within two years and recently is utilized in three ports: Abadan, Lengeh and Sajafi. My responsibility is to R&D and Design on IBM Rational Robot, IBM Rational Administrator, Testing Method and Error Recovery in Debugging Unit of GCOMS besides making tests scenarios and developing test program using C#.Net language applying RanoRex Testing Tool. This system is proud to be the second award winner of AFACT Electronic Asia Transcendent Pattern in 2011.

In **TCTS** Project, which is a smart combination of hardware and software as an exhaustive resource for managing and leading container operations which is designed and implemented for administering the most extensive container port of Iran, Shahid Rajaei Port since 2002. Conveniences performed by this system in terminal management, members appreciate container and cargo transportation of Shahid Rajaei port in thirty third session of maritime universal organization facilitation committee. My task was to test the program and troubleshooting the problems may happen in the connection

exploited black box software testing. We monitored the testing and the test environment, often using Ranorex tool for this task, and often gather performance metrics by writing and executing test scripts and bug reports. Throughout the testing life cycle, we reviewed each other's work, including test specifications, defect reports and test results.

In a nutshell, I analytically and empirically investigated the impact of concurrency on software testers such as IBM Rational Robot and devising a model for concurrency problem (e.g., C#/Bash prog.), apply analytical and problem solving skills to verify product through testing and adhere to change control and testing processes for modifications to analytical models.

**Business or sector** Information and communication

1 Apr 2007–31 Dec 2011

**Network Technician**

Sina Laboratory, Babolsar (Iran)

- Install network components and operating systems (WIN 2008 serv.,5 nodes winXP, internal switch)
- Troubleshooting network issues (hardware, software or network faults)

1 Oct 2004–1 May 2006

**Network Technician**

Shibkaran Construction Co, Sary (Iran)

- Install network components and operating systems (WIN 2003 serv.,15 nodes winXP, internal switch)
- Troubleshooting network issues (hardware, software or network faults)

**Business or sector** Construction

1 Jun 2003–22 Sep 2003

**Computer systems analyst**

Medical University, Sary (Iran)

- Maintenance the OSs and educate the internal management software to the 150+ employee of the medical universities
- Troubleshooting the hardware and software of the PCs
- Documentations and data orchestration using Microsoft Office (Access and SQL) and VB Programming for troubleshooting of the software integration of the official processing

**EDUCATION AND TRAINING**

---

1 Nov 2012–20 May 2016

**Information and Communications Technology**

Advanced university studies (Doctorate)

Sapienza University of Rome, Rome (Italy)

- Design, implementation, and evaluation of energy-provisioning cloud-based (virtualized)/networked data centers testbed
- Develop some software-based solutions by studying data center structure (model), information needs and studying data center traffic (workflow)
- Mathematical, statistical modeling, and experimental analysis of latency problem in data centers
- CloudSim Cloud Computing Platform knowledge and hands-on experience (using C++/Java over Eclipse IDE)
- Updates my knowledge by studying state-of-the-art development tools, programming techniques, and computing equipment.
- Develop efficient coding in C++/Matlab/JAVA

22 Sep 2007–15 Sep 2010

**Computer Science (Software)**

University studies (Master)

Qazvin Islamic Azad University, Qazvin (Iran)

- Programming in distributed computing e.g., grid and p2p computing using C++/Java programming.
- Programming in WSNs using NS2/Matlab IDEs.

22 Sep 2001–4 Dec 2006

**Computer Science (Software)**

University studies  
(Bachelor)

Iran University Science and Technology, Tehran (Iran)

- Software engineering courses
- Several technical reports and course projects such as MPI programming, C/C++/Java academic projects
- Software analyzing and modeling tools such as UML/RUP and Petri nets
- Be familiar with Microsoft Office, Microsoft Visual Studio, Adobe software

1 Jun 2012–12 Oct 2012

**Certified Ethical Hacker (CEH)**

Upper secondary  
education

Sharif University of Technology, Tehran (Iran)

- System Development & Management
- System Analysis & Audits
- Security Testing/Vulnerabilities
- Reporting
- Mitigation
- Ethics

1 Apr 2011–24 Mar 2012

**JAVA J2SE Developer**

Upper secondary  
education

Sharif University of Technology, Tehran (Iran)

Java Applets, Web Programming Skills, Teamwork, Verbal Communication, Web User Interface Design, Software Development Process, Object-Oriented Design (OOD)

**PERSONAL SKILLS**

Mother tongue(s) Persian

Foreign language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C2	C2	C2	C2	C1
IELTS English Language Test Test of English as a Foreign Language (TOEFL)					
Italian	B1	A1	A2	A1	A1
Spanish	A1		A1		

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user  
Common European Framework of Reference for Languages

Communication skills

- Good written communication skills gained through my experience as software specialist
- Ability to communicate and share his opinion in a team beside interacting with the team members

Organisational / managerial skills

- Technical skills in programming and optimization technology
- Good memory, ability to abstract, think on several levels
- Attention to detail

Job-related skills

- Analyzing data

- Flexibility/Adaptability
- Acting as a Team Player
- Self-Confidence/Positive Attitude
- Good Communication Skills

Digital skills

SELF-ASSESSMENT				
Information processing	Communication	Content creation	Safety	Problem solving
Proficient user	Proficient user	Proficient user	Independent user	Proficient user

Digital skills - Self-assessment grid

Ethical Certified Hacker Java Programming- Advanced Microsoft Office 2007,10 Algorithm Design
--

- **C++/Java Coding**
- **Able to write and execute complex queries in SQL**
- **Master in scripting languages e.g., HTML, CSS**
- Ability to work with several operating systems e.g., Windows, OSX, and Linux
- Good command of Microsoft Office™ tools
- Intermediate command of Oracle tools (JAVA, Oracle Enterprise 11g)
- Master in CASE & CAME Tools e.g., Rational Rose, Rational Robot, RanoRex Studio, PN Tools, SPNP (Stochastic Petri Net Package), Power Designer

Other skills

JBuilder, SQL Server (programming), Cascading Style Sheets (CSS), Microsoft Visual Studio, Computer technology (engineering), Test management (data systems), VMs management software

ADDITIONAL INFORMATION

Honours and awards

- **Permanent resident in Italy (obviously in EU) since January 2018.**
- Best paper Nomination in *CLOSER 2016*, 2016.
- Outstanding Reviewer Award, MDPI, 2017 (500 euro prize)
- Italian Government, Ph.D. Student Fellowship Award, 2012-2015. The only recipient for the DIET department, *the Sapienza University of Rome*, 2012.
- Among top 1000 in the Iranian National University Exam (500,000 participants), 2001.

Projects

- EU H2020 SUPERFLUIDITY: A converged cloud-based 5G architecture (7.7M euro)
- EU H2020 TagItSmart! - Smart Tags driven service platform for enabling ecosystems of connected objects (7.0M euro)
- ITALY MIUR PRIN GAUChO: A Green Adaptive Fog Computing and Networking Architecture (400K euro)
- ITALY MIUR S2C: Secure, Software-defined Clouds (35K euro)
- ITALY MIUR V-FOG: Vehicular Fog energy-efficient QoS mining and dissemination of multimedia Big Data streams (35K euro)
- ITALY MIUR SAMMClouds: Secure and Adaptive Management of Multi-Clouds (35K euro)
- IRAN TCTS: Tidewater Container Terminal System (1.0M euro)
- IRAN GCOMS: General Cargo Operations Management System (10M euro)

Honours and awards

- Fellowship **Award**: 58500 Euro, High Impact Research, Ministry of Higher Education, Rome, Italy

- **Award:** 19500 Euro, Department of "Enzo Ferrari", University of Modena and Reggio Emilia, Modena, Italy
- Fellowship **Award:** 54000 Euro, University of Padova, Padova, Italy
- **Award:** 5000 Euro, Principle Investigator, Research Fund for University of Padova, Italy
- **Outstanding Reviewer** 2017 in FGCS, JPDC: Elsevier Publisher
- **Top Reviewer Award 2017: MDPI Publisher**

## Publications **Book**

Gang Chen, Feng Liu, **M. Shojafar**, Fuzzy System and Data Mining, IOS Press, ISBN: 978-1-61499-618-7, pages 517, Vol. 281, April 2016. Available in <http://www.iospress.nl/book/fuzzy-system-and-data-mining/>
